highest level of filtration.

Wood's GRAN 900

Wood's Gran 900 is one of the best and most exclusive air purifiers on the market, suitable for large apartments, offices and other rooms up to 160 m². This very powerful purifier has two Active ION HEPA filters and is powerful enough to clean the air in demanding environments, such as smoke rooms, cafés or printing shops.

The Wood's GRAN 900 cleans the air from harmful particles and provides you with a healthier indoor environment. The GRAN 900 can also be equipped with carbon filters to clean the air from unpleasant odour and gases (optional accessory).

Designed and developed in Sweden the Wood's GRAN 900 blends beautifully into your home and gives you some of the best air cleaning performance in the industry.

Wood's GRAN 900 is Wood's most powerful, silent air purifier and it has one of the lowest carbon foot print on the market.

Wood's®

Eco -friendly and Human friendly Air purifiers.

We design, develop and produce products that make a big impact on the air you breathe while making minimal impact on our environment. Every component is optimized to improve the health of humans and our planet, from the non-toxic filter media to the exterior finish. Built with environmentally friendly and easy to recycle all materials such as galvanized steel and recycled polypropylene, Wood's purifiers and filters naturally break down, returning to their original carbon dioxide and water state. Wood's guarantees a healthy indoor environment at minimal impact on our environment for you and your family.

No chemical additives.

Since polypropylene fibers are waterproof, Wood's purification systems do not require the use of chemical-based bacteriostats or mold inhibitors. Instead of absorbing the moisture in which bacteria thrive, polypropylene repels water and naturally prevents bacteria, mold and mildew from reproducing inside the filter.

Warranty

Wood's leave as much as 10 years warranty because we know that we have a product of the highest quality and capacity produced in Sweden. Read more about 10 years warranty woods.se

Wood's advanced fan assembly consumes very little energy. Consuming no more energy than your alarm clock.
